

IDEA | EXCHANGE[®]

LEARN | CREATE

Combine Art and Science in a hands-on Circuit Circuit workshop. Students will be introduced to simple circuits, spend time exploring a variety of circuits, and finish it off by creating an original LED greeting card!

A local artist will guide students through a workshop where they will create a LED greeting card to take home. Students will use their creativity while learning and having fun with circuits. A perfect combination of science and art.

Plan to attend a **LEARN | CREATE** workshop :

- Available at all Idea Exchange locations
- Learn about simple circuits in a hands-on workshop
- Create a LED greeting card with a local artist
- Register students for an **Idea Exchange** Membership, giving them access to all our resources

FEE: \$5.00 per student with the option of a FREE bus ride with Grand River Transit Class Pass program.

Contact us today to schedule your class visit. Flexible tour dates and times can be arranged on an individual basis. This is an excellent value and a not-to-be-missed learning opportunity.
