

Woven Placemat

Let's get weaving! You will need 2 pieces of coloured paper (2 different colours is best), scissors, pencil, and a ruler

01

FOLD AND MARK

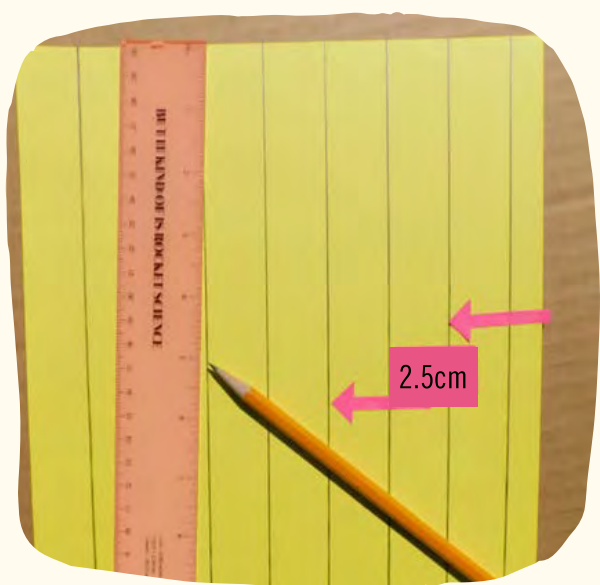

Fold 1 paper in half. Use your ruler to mark lines every 2.5cm. Be sure to leave a border at the top of the unfolded side. Now cut along the lines, starting at the folded side. Be sure not to cut into your border.

02

MAKE STRIPS

On your other piece of paper, mark 2.5cm lines lengthwise down the whole paper.

03

CUT STRIPS

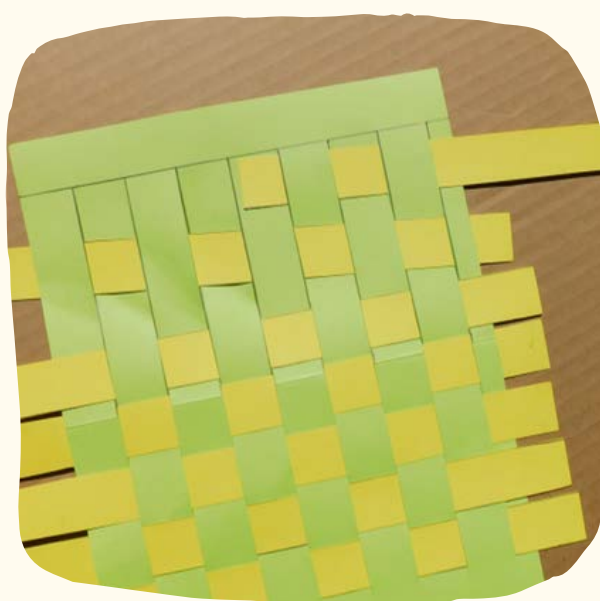

Cut along your lines to make long strips of paper. Unfold your first piece of paper.

04

WEAVE

Weave your long strips of paper through the holes on your first piece of paper from side to side. Alternate between going over and under. Start at whatever side feels comfortable and take your time.

05

FINISH

Trim the edges of your long strips so they line up with your first piece of paper. Ta-da!
